THE ALUMNI ALCOVE

The attention of the Alumni is called to the Alumni Alcove in the Seminary Library. This Alcove was established some years ago, and is intended to contain the publications of all those who have been students in Princeton Seminary, and thus be a visible and enduring monument of the large literary activity and influence of the sons of Princeton, who have done so much toward moulding and directing the Christian thought of this and other lands. It is believed that the Alumni will at once recognize the desirability of such a collection and the consequent desirability of making it as complete as possible. To this end they are earnestly requested to send to the Library their printed works, whether books, pamphlets or sermons. The receipt of these will be immediately and gratefully acknowledged, on behalf of the Library, by

J. H. DULLES,
Librarian.
